Dear Mr. Logan:

The subject hazardous waste storage facility was inspected by a representative of this Agency on December 6, 1982. The inspection revealed that the site was closed in accordance with the approved closure plan dated March 10, 1983.

Certification that the site had been closed in accordance with the approved closure plan by the owner/operator, Bob Logan, and an independent registered professional engineer of Illinois, Gary L. Ebersole, was received at this Agency March 16, 1983.

Therefore, this Agency concurs that the hazardous waste storage site at Bob Logan's Tractor Company is closed in accordance with the referenced closure plans and in accordance with the Interim Status Standards, Ill Admin. Code, Part 725 (40 CFR, Part 265).

Very truly yours,

ORDER TO WITHDRAW COMPLAINT

Director, Waste Management Division, Region V, of the United States Environmental Protection Agency (U.S. EPA), having been duly delegated authority by the Regional Administrator, hereby withdraws the Complaint issued to Respondent on November 2, 1982. This Order is issued pursuant to the Consolidated Rules of Practice, 40 CFR §22.14(e), for the following reasons:

1. The Complaint cited Respondent for storing hazardous waste after November 19, 1980, without having achieved interim status in violation of Section 3005(a) of the Resource Conservation and Recovery Act (RCRA). 2. Based upon information received after the Complaint was issued, U.S. EPA has determined that the facility ceased operation, removing all hazardous wastes, as of December 11, 1982. Respondent submitted a closure plan to the Illinois Environmental Protection Agency (IEPA) on March 10, 1983. IEPA approved the plan on April 6, 1983.
